DETAILED ACTION

This is in response to the amendment submitted June 21, 2004. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claims 1-7 are currently pending in this application.

Election/Restriction

1. Cancellation of non-elected claims 8-14 by Applicant has been noted. Applicant may re-file said claims in a divisional application.

Allowable Subject Matter

2. Claims 1-7 are allowed over the prior art of record.
3. The following is an examiner's statement of reasons for allowance:

The specific method of producing metal hydride misch-metal composite powders, comprising:

 - providing to a rotary flow through electrodeposition apparatus a powder whose particles comprise one or more lanthanide alloy metal selected from the group of titanium lanthanide alloy metals and nickel lanthanide alloy metals; and
 - electrodepositing one or more non-lanthanide metals on the powder via the apparatus was not taught or suggested by the prior art of record.

Art Unit: 1742

It should be noted that the closest prior art was that of Griego (U.S. 5,565,079 - cited by Applicant) but it is generic with respect to the specific powder used and metal electrodeposited onto the powder.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
